“Public Service Superannuation Amendment Act 2026”

Question Period

10:15a.m.

Senator V.J. Cunningham asked a question to Senator the Hon. K.R. Wilkerson on her Ministerial Statement entitled “CFATF 62nd Plenary and Working Group Meeting”.

Senator V.J. Cunningham asked a supplementary question.

Senator the Hon. K.R. Wilkerson replied.

Senator T.O.P. Tannock asked a question.

Senator the Hon. K.R. Wilkerson replied.

Senator Lauren F. Bell to provide Oral and Written Response to Parliamentary Questions by Senator David H. Rogers.

*1. Can the Junior Minister please inform the Senate how many entities have been invited or approved to participate in the procurement process including the anticipated appointment date for the reviewer and the anticipated completion date for the final report?

*2. Can the Junior Minister please inform the Senate what the current average length of delay to discharge is for patients in acute care beds who have been assessed as medically fit for discharge?

3. Can the Junior Minister please inform the Senate whether the Ministry of Health or the Bermuda Hospitals Board has established measurable operational targets for reducing Emergency Department boarding, hallway patient care, delayed discharges, and acute care bed days lost, and if so, can the Junior Minister please provide the specific targets and timelines attached to each measure?

ANSWER: The line of questioning indicates familiarity with internal operational matters that are not ordinarily in the public domain. The Government does not comment on, or disclose, information arising from confidential operational discussions within the hospital system. In accordance with established principles of confidentiality and the public interest, I am therefore unable to provide a response to this question.

Senator Lauren F. Bell to provide Oral Response to Parliamentary Questions by Senator Victoria J. Cunningham.

*1. Can the Junior Minister please inform the Senate what the current average length of stay in the Emergency Department is for admitted patients, and how that figure compares to the benchmarks used by the Bermuda Hospitals Board?

*2. Can the Junior Minister please inform the Senate whether any formal analysis has been conducted on the proportion of Emergency Department presentations that could be redirected to primary or community care settings, and if so, what that analysis found?

Senator Lauren F. Bell to provide Oral and Written Response to Parliamentary Questions by Senator Tarik J.D. Smith.

*1. Can the Junior Minister please inform the Senate what measurable improvements have been recorded to date as a result of the implementation of a discharge lounge, Bed Capacity Management Plan, and enhanced discharge processes?

*2. Can the Junior Minister please inform the Senate how many additional skilled nursing or long-term care beds are currently funded, approved for development, or under active construction or expansion given the projection that

Bermuda will require approximately 365 skilled nursing facility beds by 2035?

3. Can the Junior Minister please inform the Senate whether the Ministry of Health or the Bermuda Hospitals Board has established measurable operational targets for reducing Emergency Department boarding, hallway patient care, delayed discharges, and acute care bed days lost, and if so, can the Junior Minister please provide the specific targets and timelines attached to each measure?

ANSWER: Yes. The Bermuda Hospitals Board's principal operational target is 6 hours for boarding. Boarding is the time from the decision to admit a patient to their transfer into an inpatient bed, consistent with the standard used by the US Centres for Medicare & Medicaid Services. Boarding is the main measure of Emergency Department flow. Because hallway patient care, delayed discharges, and acute care bed days lost are all driven by the same shortage of inpatient beds, they are managed together under this single target rather than through separate published figures. It should be mentioned that unlike our North American counterparts, we are the only emergency department in the country and have no options to transfer patients to other hospital facilities other than overseas.

Senator L.F. Bell informed Senate, pursuant to Standing Order 65(4)(k), the information is already in the public domain, which was objected to.

- 10:28a.m. – Senator T.O.P. Tannock (P.O.C)
